EXECUTIVE SUMMARY

Full-stack developer who learns by building and grows by deploying. Skilled in HTML, CSS, and JavaScript, with hands-on experience in React, Vite, Node.js, Express, MongoDB, and API development. I love blending creativity with logic designing clean, responsive interfaces while building scalable backends that bring ideas to life. Every project is another opportunity to write better code, solve real problems, and craft web experiences that look great and feel solid.

FREELANCE PROJECTS

React-Based Chatbot
- React + Vite SPA with HMR and component-based architecture
- Gemini API integration with .env key handling (.gitignore secured)
- Stateful chat logic using useState, useEffect, and async fetch
- https://nisarga05.github.io/Chat-bot/

Student Management System
- Built a React.js + Vite app to add, view, and manage student records.
- Used useState for real-time updates and automated pass/fail status.
- https://nisarga05.github.io/Student-Management-system/

Netflix Themed Portfolio
- Built a React + Vite SPA with component-based, responsive design.
- Deployed on Vercel with mobile-first optimization for fast performance.
- Showcases projects, skills, and contact details in a clean interface.
